

FIRE ENGINEERING & RISK MITIGATION

About Us

Maximising aspiration and value whilst minimising impact. These are the objectives for all clients and the hallmarks of BWC Fire Limited's services.

BWC Fire Limited (BWC) are leading independent specialist fire engineering and fire risk management consultants who provide a wide range of consultancy services to professionals involved in the design, development, construction and management of buildings.

Our consultant's experience is eclectic with all consultants possessing recognised fire engineering specific qualifications, are Chartered Fire Engineers registered with the Institution of Fire Engineers, have proven experience in fire consultancy and are also actively involved in fire research and code development. But beyond the technical we are people too and aim to provide you with a personal, project specific service that is tailored to what you desire.

With extensive experience of developing and applying fire engineering to buildings of all shapes, sizes and uses BWC has the complete fire consultancy package for your projects. Our services aim to deliver you flexible solutions that are tailored to your specific requirements and circumstances, with a focus always on achieving your goals in a cost efficient manner.

Minimising Impact...

Why BWC ?

BWC

BWC operates within a wide range of sectors and has a broad wealth of experience. Complementing experience is our implicit ability to understand and meet client's needs by flexible approaches and outside the box thinking. Seven great reasons to choose BWC include:

- Chartered Fire Engineers are actively involved on every project with no exceptions
- Full Turnkey Support – Our experience, capabilities and services enable us to meet your needs at every stage. By drawing on our full building cycle experience at each stage of a project our staff are able to add value to every project.
- Flexible approach ensuring we always strive to achieve what you want for your building
- Independent advice – We ensure you get the right advice for your project without any secondary motivations
- Quality assured – All of our services are carried out to the principles of ISO 9001
- Cost effective – Consultancy should not mean high cost. We deliberately maintain low operating costs to ensure our organisation is sustainable and also a viable prospect for your project.
- Approachable, proactive and friendly service – We want to build lasting relationships as well as buildings.

Putting you first...
